

VANGUARD LIFEBOAT SERVICE ENGINEER TRAINING COURSE

Vanguard holds an intrinsic belief that the safety of equipment is only as good as the service.

Every quarter, we offers a one-week comprehensive training program spearheaded by a highly experienced and motivated trainer to enhance the capability and quality of our service agents through hand-on courses, on-site visit, lectures and networking opportunities with industrial partners.

We make sure all Vanguard's authorized service agents are at the forefront of the industry, equipped the understanding of all the latest skill and knowledge.

WHY CHOOSE **VANGUARD?**

STAYING AT THE FOREFRONT OF THE INDUSTRY

Vanguard is one of the members of the prestige maritime association - ILAMA which plays an important role in the international maritime and offshore oil and gas safety scene. Vanguard has a high involvement in discussing and submitting solutions towards maritime safety issues and to keep ourselves with high exposure to the latest IMO regulations.

ENSURING EXCELLENT SERVICES FOR OUR PRODUCTS

Vanguard goes through a stringent and careful selection process for the best service companies to work with us towards the maintenance of Vanguard lifeboats and more importantly, ensuring the safety of lives at sea.

A PROGRAM DESIGN FOR ALL NEEDS

Vanguard, an OEM has produced most types of lifeboat and rescue boat, davit and winch. We have the most experience and knowledge in developing the training program which provide application of knowledge through theories and practical courses for all servicing needs.

WE PLAN AHEAD

The Vanguard 'Hook Change Out' program was conceived following the IMO/MSC 1327 guidelines. The 'Hook Change Out' Program prepares our certified service agents with the knowledge, the technical know-how and the skills set to serve the market's demand in the changing out of the Hooks Release System.
